

Euro line JA3500P-E Piston cassette lift

Jema Autolifte A/S
we are here to surprise!

Jema Autolifte Euro line piston cassette lift JA3500P-E

The Jema piston cassette lift JA3500P-E has a lifting capacity of 3.5T and is the perfect lift for the large auto repair shop or the quality proven user.

The lift is European manufactured and assembled by the best possible components on the market!

The piston lift is for in-ground installation, so it gives one great working environment and end result. Effective Max. platform height is 1920 mm and the distance between the platforms is 920 mm

JA3500P-E is manufactured in Europe and is of course CE Approved

Technical specifications

- Lifting capacity 3500 kg.
- Lifting time 35 sec.
- Lowering time 35 sec.
- Lifting height 1860 mm
- Drive over height 60 mm
- Piston diameter 123 mm
- Installation debt 2338 mm
- Power supply 380V
- Weight 1400 kg.
- CE approved

Lifting platforms

The JA3500P-E has movable lifting platforms for the best possible connection to the vehicle's lifting points and provides the consumer with a safe and reliable piston lift for daily use.

Cassette

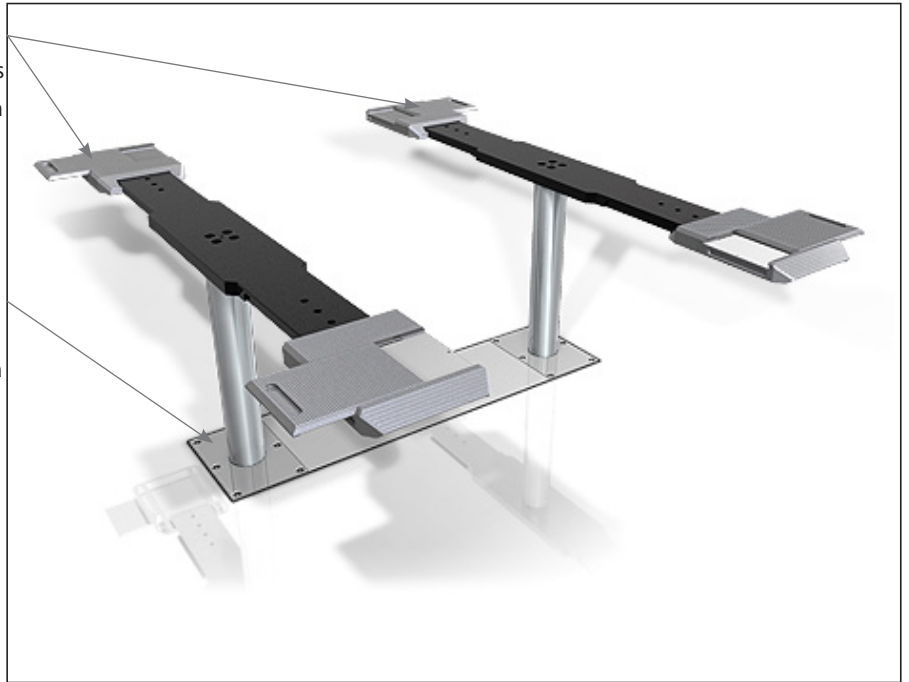

The JA3500P-E is manufactured with cassette in the floor to remove unnecessary items on top of the workshop floor - the JA3500P-E has a lifting capacity of 3.5T.

Functionality and capacity

The JA3500P-E has a lift time of 35 sec and a lowering time of 35 sec. The JA3500P-E is therefore particularly suitable for servicing and other mechanical work.

Drive-on height

Due to the low profile (60mm) it is possible to work with all types of vehicles.

The JA3500P-E is one of the best piston lifts on the market in its weight class. The lift is manufactured in Germany!

The JA3500P-E is CE approved
